**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I it is very important to have competition. Our previous carrier, did not have good costumer service, and it did not have the best internet service. It was our only cable option. Our current provider has fair prices, great customer service, and we have not had any issues with the internet service. We only have this option, because we moved. I think it is very important to have multiple providers to keep the prices fair, and to give people optionality.

Internet prices should not be coming up. More and more people are using the internet, which should bring the price down. I want no price hikes. Dsl is very important to my business. I wish I had fiber, but that is not currently available.

I believe the FCC should be focusing on competition, and not bringing fiber to all areas.

Thanks,

Josh
